

How to sell a product through the Yooy organization?

Only as our active member and products that are in the Yooy pallet and original package with Yooy certificate. All of our products are made according to our protocol criteria and approved by our commission.

- In what way can you invest in our startup project and how do you apply? Go to complex cell, address us with an idea and short biography and you will get further instructions via mail or you will be contacted by our experts.

- How to actively work?

The best way would be to volunteer or go through practical training and after that, according to your own ambitions, decide for a specific sector in which you would like to realize yourself.

- Where can you help the most as a volunteer?

Send a short biography and you will get a call from the closest regional center. Why are there no real and defined guidelines on how to help Mother Nature? Because there is no subject for a healthy life.

Who is actually behind the Yooy organization? We are a world association of those who have teamed up together with the same goal. → see statute

We have our own authorities and our assembly. We have the right to our opinion and the right to vote. How do other organizations work?

Funds are being collected through projects and by lobbying, which are being implemented through different educational projects or through startups.

What's the difference between us?

An essential difference is that we implement a good project in 1000 places with a serious potential for it to become a worldwide brand. And we all work towards that. We work at a full pace because we don't have time to waste! We believe many organizations should question themselves, to determine their previous work and its effects and to redirect their actions towards urgent and prioritized activities with reorganization and merging.

- Why does everything I read look very easy and simple?

The Yooy organization works clearly, transparent, fast and without wasting time, energy and money on unnecessary things. In the background of everything is long – term examination, tracking and logistics. There are protocols, rules, systemization and communication according to high standards. Experiments are done on many sides and it is done on a well laid foundation.

- How did you come up with so many good ideas?

By working and experimenting and by studying. Because he who works also makes mistakes. Mistakes were corrected by innovations with experiments. Especially young, even children, have managed to start new procedures and new perspectives. One screw can change a lot of things.

- How can I help because I live in the city?

We have projects for urban environments. We want to hear your thoughts. Help us in lobbying, propaganda, development of our observatory in order to obtain data,

help with our magazine, branding new products, organizing presentations or maybe a fair.

- What is the income like in the organization?

The rulebook stipulates that master managers of certain sectors have no income. Neither does the president of the assembly or the senate.

- How to help sell the Yooy label products?

Our sales work through our portal. The so called D2C business model. ← see more

- I would like to volunteer and help. I like to grow something useful as well as flowers.

Well done! Beautiful colors, good taste and smell and sincere collaborators will be waiting for you.
